

DEVELOPMENT PHASE – PART 1

Sports Hall Booking System (ServiceNow)

Duration: 11 June 2026 – 17 June 2026

1. Development Overview

During this phase, the Sports Hall Booking System was implemented on the ServiceNow platform. Custom tables, forms, modules, workflows, and notifications were configured.

Component	Implementation
Application	Sports Hall Booking System (Scoped App)
Tables	Sports Hall, Time Slot, Booking
Forms	Hall, Slot, Booking forms
Modules	Hall Management, Booking, Reports
Flow Designer	Booking Approval Flow
Business Rules	Availability validation, status update
Client Scripts	Mandatory field validation
Notifications	Email on approval/rejection
Roles	Admin, Sports Coordinator, Student

2. ServiceNow Tables

Custom tables store sports halls, time slots, and booking information with appropriate relationships.

3. Forms and Modules

Forms were created for each table and exposed through application modules for easy navigation.

4. Approval Workflow

Flow Designer automatically routes booking requests for approval and updates the booking status.

5. Security

Role-based access ensures only authorized users can manage halls and approvals.

6. Outcome

Core application functionality was successfully implemented and prepared for testing.
