

# PROJECT DEMONSTRATION

## Sports Hall Booking System (ServiceNow)

Demonstration Phase

### 1. Demonstration Overview

The project demonstration showcases the complete Sports Hall Booking System developed on the ServiceNow platform. The demonstration verifies that users can successfully reserve sports halls, administrators can manage bookings, and coordinators can approve requests through an automated workflow.

| Step | Demonstration Activity          |
|------|---------------------------------|
| 1    | User Login                      |
| 2    | Open Sports Hall Booking Portal |
| 3    | View Available Sports Halls     |
| 4    | Select Date and Time Slot       |
| 5    | Submit Booking Request          |
| 6    | Coordinator Reviews Request     |
| 7    | Approve or Reject Booking       |
| 8    | Email Notification Sent         |
| 9    | View Booking History            |
| 10   | Generate Booking Reports        |

### 2. Modules Demonstrated

- Hall Management
- Time Slot Management
- Booking Management
- Approval Workflow
- Notifications
- Reports & Dashboards

### 3. Test Scenarios

Successful booking creation, approval workflow validation, duplicate booking prevention, and report generation.

### 4. Results

The system successfully automated sports hall reservations, minimized scheduling conflicts, and provided real-time visibility into booking status.

### 5. Challenges

Initial data setup, workflow configuration, and user role assignment were addressed during implementation.

### 6. Future Improvements

Mobile application support, SMS notifications, QR code check-in, payment gateway integration, and advanced analytics.

## **7. Conclusion**

The project demonstration confirmed that the Sports Hall Booking System satisfies the project objectives and is ready for deployment.
